Everything About Oil – And Beyond

The Cosmo Energy Group is making a vigorous step forward into the future

The Cosmo Energy Group will strengthen a financial condition by increasing the profitability of the Oil Exploration and Production Business and the Petroleum Business. In view of long-term changes in the business environment, the Group will also expand its business portfolio by actively investing in the Renewable Energy Business and increasing the competitiveness of the Petrochemical Business.

Cosmo Energy Group Management Vision

In striving for harmony and symbiosis between our planet, man and society, we aim for sustainable growth towards a future of limitless possibilities.
