

# An energy company building a sustainable, prosperous society

The Cosmo Energy Group will strengthen its financial condition by increasing profitability of the Oil Exploration and Production Business and the Petroleum Business. From the perspective of long-term changes in the business environment, the Group will also expand its business portfolio by actively investing in the Renewable Energy Business and increasing the competitiveness of the Petrochemical Business.

## Cosmo Energy Group Management Vision

In striving for harmony and symbiosis between our planet, man and society, we aim for sustainable growth towards a future of limitless possibilities.

### Our Basic Approach to Sustainability

#### Harmony and Symbiosis

- Harmony and Symbiosis with the Global Environment
- Harmony and Symbiosis between Energy and Society
- Harmony and Symbiosis between Companies and Society

#### Creating Future Values

- Creating the Value of "Customer First"
- Creating Value from Diverse Ideas of the Individual
- Creating Value by Expressing Collective Wisdom

# Oil & New

Everything About Oil – And Beyond
