Cosmo Energy Holdings Co., Ltd.  
Cosmo Oil Marketing Co., Ltd.

**Cosmo Oil Marketing Begins Supplying  
100% Renewable Energy-Derived Electricity to Yachiyo City  
~Aiming for an Annual CO2 Emissions Reduction of Approx. 5,940 Tons  
Across 75 Municipal Facilities~**

Cosmo Energy Group company, Cosmo Oil Marketing Co., Ltd. (hereafter, “Cosmo Oil Marketing”), announced that it has begun supplying 100% renewable energy-derived electricity to 75 municipal facilities, including the city hall main building and elementary and junior high schools, in Yachiyo City, Chiba Prefecture, starting on March 1, 2025<sup>1</sup>.

In 2020, Yachiyo City declared itself a “Zero Carbon City” and has been working on environmental preservation and the creation of a decarbonized society to promote sustainable urban development, with the goal of achieving net zero greenhouse gas emissions by 2050. In addition, in the Yachiyo City Global Warming Prevention Action Plan (Administrative Operations, 5th Revised Edition), the city has set a target of reducing total greenhouse gas emissions (CO2 equivalent) by 34% by FY2030 compared to FY2013 levels.

As an initiative to contribute to the realization of this plan, Cosmo Oil Marketing will offer its renewable energy-derived electricity plan, Cosmo Denki (Electricity) Business Green<sup>2</sup>, to Yachiyo City facilities covered under the agreement. The plan provides renewable energy-derived electricity, endorsed by a non-fossil certificate with tracking information linked to a renewable energy source that falls under Japan’s Feed-in-Tariff (FIT) scheme, such as wind power generated by Cosmo Eco Power Co., Ltd., a Cosmo Energy Group company.

Yachiyo City Hall main building, to which Cosmo Oil Marketing began supplying renewable energy-derived electricity

With the introduction of Cosmo Denki (Electricity) Business Green annual electricity consumption of approximately 13 million kWh<sup>3</sup> by 75 Yachiyo City facilities will be converted to renewable energy-derived electricity. This accounts for approximately 33%<sup>4</sup> of the electricity consumed across the city's administrative operations and is expected to result in an annual CO2 emissions reduction of approximately 5,940 tons.

Going forward, Cosmo Oil Marketing remains committed to supporting local governments and companies in reducing their environmental impact and will continue to undertake various initiatives toward the realization of a decarbonized society.

1. The company name on the agreement is Cosmo Energy Solutions Co. Ltd.

Cosmo Energy Solutions Co., Ltd. is a 100% subsidiary of Cosmo Oil Marketing and a retail electricity operator that supplies electric power. Cosmo Oil Marketing has entered into a distributor agreement with Cosmo Energy Solutions regarding sales of electric power.

2. About Cosmo Denki (Electricity) Business Green

Cosmo Denki (Electricity) Business Green is a service that helps businesses achieve virtually zero CO2 emissions by providing them with added environmental value in the form of non-fossil certificates and other designated renewable energy certificates. Customers purchase such certificates with a value equivalent to or greater than their total annual sales volume as part of the electricity sales process, thereby receiving proof that all the electricity they use offers environmental value derived almost entirely from renewable energy sources. Since its launch in 2020, the service has been utilized mainly by corporations and local governments seeking to decarbonize their operations. Furthermore, Cosmo Zero Carbon Solution offers a one-stop solution that encompasses renewable energy as well as complementary products and services such as electric vehicles (EVs).
