Cosmo Oil Marketing and EVA Air Sign SAF Purchase Agreement

Cosmo Oil Marketing Co., Ltd. (hereafter, "Cosmo Oil Marketing"), a subsidiary of Cosmo Energy Holdings Co., Ltd., and EVA Airways Corporation (hereafter, "EVA Air") have signed a Sustainable Aviation Fuel (SAF) purchase agreement to advance sustainable air transportation. With plans to supply SAF to the airline at Kansai International Airport, this marks the first time that EVA Air has entered into an SAF purchase agreement for the Kansai area.

The SAF traded under this agreement was commercialized following the receipt of a New Energy and Industrial Technology Development Organization (NEDO) subsidy¹ in 2021, aimed at establishing a supply chain model for SAF production from domestically sourced used cooking oil. It is the first locally made SAF to be mass produced in Japan and has obtained ISCC CORSIA and ISCC EU certifications². These certifications are part of the International Sustainability and Carbon Certification (ISCC) initiative, which recognizes compliance with international standards for sustainable products. The fuel will be produced by SAFFAIRE SKY ENERGY LLC, a joint venture formed by Cosmo Oil Co., Ltd., JGC HOLDINGS CORPORATION, and REVO International Inc., and supplied to EVA Air via the Cosmo Energy Group starting in FY2025.

The Cosmo Energy Group has worked to establish a supply chain to deliver Japan's first locally made SAF, with the goal of achieving net zero carbon emissions by 2050. The Group is also helping build social momentum through initiatives such as an ongoing pilot program to collect household used cooking oil at service stations for repurposing into SAF feedstock.

Recognizing decarbonization and the realization of a recycling-oriented society as key priorities, the Cosmo Energy Group remains committed to addressing societal challenges and fostering sustainable corporate development. At the same time, the Group will continue to promote the use of SAF in air transportation and contribute to the creation of a sustainable, resource-recycling society.

Comments from Company Representatives

Naoki Takayama, President & Representative Director of Cosmo Oil Marketing:

"We are delighted to contribute to the decarbonization efforts of global airline EVA Air and its customers through SAF, one of our key decarbonization products. SAF plays an essential role in the decarbonization of the aviation industry, and we are excited to be part of this important initiative. Moving forward, we will continue to support the realization of a decarbonized society, through collaborations like this, by promoting the use of SAF."

Takeshi Takada, Representative of SAFFAIRE SKY ENERGY:

"Since 2021, with the support of the Japanese government, the Ministry of Economy, Trade and Industry's Agency for Natural Resources and Energy, and NEDO, we have been working with JGC HOLDINGS CORPORATION, Cosmo Oil Co., Ltd., and REVO International Inc. to commercialize SAF. I would like to express my sincere gratitude to everyone involved for helping to build a major wave of domestic resource recycling through activities such as *ACT for SKY* and *Fry to Fly*."

Clay Sun, President of EVA Air:

"Today, sustainable development is not just a choice—it is a responsibility. Our bilateral collaborations with COSMO reflect our commitment to net-zero emissions. By actively introducing SAF across our global network, we are reducing our operational carbon footprint and fostering transformation and growth throughout the aviation supply chain."
