

Vision

Cosmo Oil Group Management Vision

In striving for harmony and symbiosis between our planet, human and society, we aim to achieve sustainable development towards the future of unlimited possibilities.

Harmony and Symbiosis

- Harmony and Symbiosis with the Global Environment
- Harmony and Symbiosis between Energy and Society
- Harmony and Symbiosis between Companies and Society

Creating Future Value

- Creating the Value of “Customer First”
- Creating the Value from the Diverse Ideas of the Individual
- Creating the Value by Exerting Collective Wisdom

Vision

• Light and Shadow of Oil

By turning itself into fuel, raw materials, medicines, and so forth, oil has brought many benefits to humankind, but on the other hand mass consumption of energy has imposed a great impact on the global environment.

• The Cosmo Oil Group’s Resolution

With the fact in mind that the main function of the Cosmo Oil Group is the handling of oil, we wish to remain as an energy company that can deliver a new value while stressing the importance of the harmonious symbiosis among the earth, human and society in the hope that a fruitful future can be realized.

• Our Two Slogans

We have entrusted these intentions to the two slogans “Living with Our Planet.” and “Filling Up Your Hearts, Too”. We have compiled this report in order to communicate to stakeholders the Cosmo Oil Group’s efforts that have been made based on these two slogans to realize a sustainable society.

“Living with Our Planet.”

For the continued existence of the Cosmo Oil Group, we faithfully conduct what can be done and what needs to be done for the earth beyond the scope of the oil business.

To remain as an energy company that can be chosen by customers, we continue to assist their meaningful daily lives with the stable energy supply.

“Filling Up Your Hearts, Too”
