Editorial Policy

This report aims to present a wide range of corporate activities conducted by the Cosmo Oil Group in a clear and easy-to-understand manner from the perspectives of CSR management, safety, the economy, environment, communication and society. While the editing of this report was conducted in accordance with the spirit of Global Reporting Initiative (GRI) Sustainability Reporting Guidelines 2006, subjects included in the report are selected with reference to Sustainability Reporting Guidelines 2002.

Environmental accounting indicators are compiled with reference to the Environmental Accounting Guidelines 2005 published by Japan's Ministry of the Environment.

▶ Environmental data, including detailed data on environmental accounting and site specific data, will be available on our website. From the end of December 2007, we plan to post web pages beginning with the following URL:
